# E-STAMPING

Dear Members,

Taking lessons from infamous Telgi stamp paper scam the state governments in India have of late been working towards adopting e-stamping facility aimed at preventing fake stamp paper circulation and curbing corruption. The system, launched in association with Stock Holding Corporation of India Ltd (SHCIL), has been designed to prevent, hitherto prevalent, paper and process-related fraudulent practices in registration. According to news sources, Government of Delhi has launched **e-stamping facility in the state by April 1, 2008**. The Government of Delhi has signed an agreement with SHCIL to facilitate the collection of stamp duty through electronic route.

The SHCIL has been authorised by the Centre to act as the central record keeping agency for the e-stamping project. The e-stamping system has multi-level security. The stamp certificate generated by the system comes with a **Unique Identification Number (UIN)** which is not repeated. The authenticity of the stamp certificate can be verified with the help of UIN on the e-stamping website **'www.shcilestamp.com'**. The system generates a tamper-proof certificate through encryption of important identification content of the stamp certificate. An optical watermarking eliminates the possibility of duplication of the stamp certificate.

It offers a secure and reliable stamp duty collection mechanism; and stores information in secured electronic form and builds up a central data repository to facilitate easy verification. It generates online **Management Information System (MIS)** reports for the government and public. The ASC official will collect payment and feed details of the transaction into the system, which will generate a stamp duty paid certificate. The entire exercise of stamp duty payment and generation of stamp duty certificate takes no more than three minutes.

## Some FAQ's and their answers for the FSIA members

### General Facts about Stamping

**Ques: What is Stamp Duty?**

Ans: It is type of Tax collected by the State Government.

**Advt. :** Many Successful businesses are controlling their Business operations, Accounts, Purchase, Sales, Complaints, Collections, Taxation, Production, ISO-9000/ ISO-14001 and TS-16949 systems on the Finsys ERP packages © MLG Infotech P Ltd 1992-2007.

Costing is very very important – Infact with Maruti, Hero Honda, TVS, Bajaj, and infact every customer today pushing you for more price cuts, you must be CLEAR what is your costing . Finsys ERP provides you excellent tools for that. → Infact you can even monitor your overheads → Example Telephone Expense– Cost Centre Wise, Conveyance /petrol = Salesman/Dept wise, Salaries -> Cost Centre Wise etc.

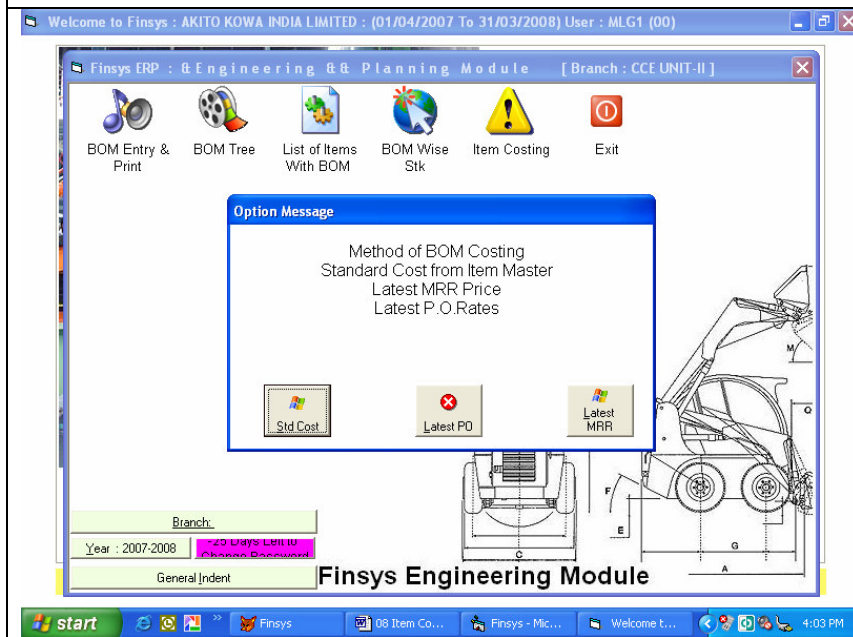

# Item Costing

Finsys ERP has Detailed functionalities for Process Industry  
Auto Components  
Castings,  
Chemicals,  
Forgings, Rubber,  
Plastics, Sheet Metal

Capital Goods Industry =  
manufacturers of EOT  
Cranes, Large Projects,  
Hydraulics, Printing  
Machines, Valves, End-  
joints,

Project industry =  
Turn-key project  
companies etc

The Special Costing  
Module of the ERP  
System has the facility to  
give you –

- A) Pure RMC Cost
- B) Bill of Material as defined by the Engineering Dept
- C) Raw Materials and BOP at the cost .. as selected by you – Standard or Actual.

## Material Costing is based on 5 methods

- First : Standard Qty, Standard Rate, **What you planned to earn on that item ?**
- Second : Standard Qty, Latest PO Rate,
- Third : Standard Qty, Latest MRR Rate,
- Fourth : Actual Qty, Standard Rate
- Fifth : Actual Qty, Actual Rate -- **What did you actually earn on that item ?**

For Trade Enquiries contact : Puneet Gupta 93500-18744, Dinesh Verma 9313136494 - MLG Infotech Pvt Ltd – the company that can give you both the full ERP and also modules , according to your need.
